

## WHEN YOU RECYCLE, IT IS IMPORTANT TO DO IT RIGHT!

General Rules for Saratoga County Recycling Centers include,

1. Accepted—newspaper, magazines, junk mail, office paper, corrugated cardboard, paperback books. All paper products should be dry and clean.
2. Accepted—glass bottles, and jars (clear and colored). Rinsed clean with the lids removed and discarded.
3. Accepted—Plastics that have the triangle with numbers 1 thru 7 only. No Styrofoam products at all.
4. Accepted—Tin, steel, and aluminum cans. Should be rinsed free of residue with lids removed.
5. Accepted—Large appliances such as stoves, refrigerators, washers, and dryers. Should have all material removed from the inside, including any glass shelves.

When in doubt, ask our attendant at the Center, or call our toll-free hotline.

### PLEASE DON'T CONTAMINATE THE RECYCLING PROCESS!

The recycling process can be easily contaminated by throwing the wrong thing in the wrong container. The Recycling Program is actually a business providing raw material to manufacturers of new products. The manufacturers expect the material we deliver to be pure. When they reject our material, it is because of contamination.
